

IOD's Briefing

## Better Governance, Better Business: Thailand's Progress Report

April 4, 2018, 08.00-12.00 hrs. at Ballroom, Grand Hyatt Erawan Hotel

### Overview

During the past few years, the global corporate governance landscape has adjusted according to the changing business environment. An expectation of investors focuses on the business sustainability, consideration on all stakeholders (not just the shareholders) and leadership role of the board of directors on, for example, a strategy and risk.

In Thailand, a strong collaboration among capital market organizations has enabled corporate governance in the Thai capital market to progress in many areas. These organizations have attentively followed the changing trends, made the adjustment accordingly and arranged various supporting activities.

This event aims to update the directors about a recent development of the corporate governance, sustainability and anti-corruption in Thai business.
